DealStork.com is a locally owned and operated Twin Cities group buying company that delivers what traditional marketing can't, guaranteed paying customers. When you advertise in a magazine, billboard, radio or anywhere that you pay a fee for exposure, you are paying to reach consumers whether they have interest in your business or not! This is why promoting your business based on a "cost-per-thousand" is expensive and risky, because you need to reach a lot of people to find those who might be interested in your product/service and in many instances you have no way of tracking it.

With **www.DealStork.com** you still reach 1,000's of consumers just like "traditional" advertising, but you only give something in return when an interested customer purchases your product.

How does DealStork.com benefit my business?

- With no up-front risk or cost, you receive guaranteed paying customers without spending valuable advertising dollars.
- Immediate cash flow.
- DealStork helps you to build your first time customer base – the most expensive consumers to reach.
- DealStork's customer email program gives you contact information from those who purchased your offer and opted in to receive future communications from you, so you can create an ongoing marketing program long after your DealStork promotion has ended.
